Issue	Respondent's initial
I have read the information presented in the information letter about the study “friendly way of teaching math”	
I have had the opportunity to ask any questions related to this study, and received satisfactory answers to my questions, and any additional details I wanted.	
I have been informed that I can abort the tests any time without needing to provide reasons.	
I am aware that sensor data taken during the UI evaluations may be recorded for statistical evaluations and for understanding deficits in UI sensing technology. Video recordings of human-understandable color images will be anonymized.	
I give permission for recordings of sensor data to be kept temporarily for the purpose of statistical evaluations, as well as for algorithmic/technical improvements of the technical environment. I uphold the right to cover my face with a mask to hide my identity.	
I am also aware that excerpts from interviews may be included in publications to come from this research. Quotations will be kept anonymous.	
I give permission for the interview to be recorded using audio recording equipment.	
I understand that relevant sections of the data collected during the study may be looked at by individuals from the research group Augmented Reality of TU Munich, where it is relevant to my taking part in this research. I give permission for these individuals to have access to my responses.	

With full knowledge of all foregoing, I agree to participate in this study.

I agree to being contacted again by the researchers if my responses give rise to interesting findings or cross references.
